

## 2011 Squirrel Rifle Championship Shoot

The Buckhorn Skinners would like to thank all the shooters and participants that braved the unpredictable weather to prove their spring skills on the hill. The weekend weather was much better than originally predicted by the weather forecasters. Wind was the word of the day on Saturday but did not deter shooters of any age. There were short breaks in the wind to allow for an occasional upright shooting position. Juniors were doing well off the cross-sticks. Hunters aggregate had some rare good scores at 75 and 100 yards.

Friday evening setup ended with a liver and onions feed by the talented chef Mountain Mule. Those campers that braved the winds did not get much rest due to the flapping canvas and rocking campers.

Saturday evening we had a carry in meal that continued the high standard of food prepared by shooters and rendezvouchers alike. The campers could hardly sleep Saturday night due to the almost total calm throughout the night!

Sunday was a beautiful morning to finish the shooting and handout medallions, plaques, and picks off the prize table.

Thanks for your support for 2011

Buckhorn Skinners
